

Quench Q5

Freestanding and Countertop Series with

- Appreciate refreshing filtered water at any time in any environment
- Choose robust, large capacity model that delivers a great user experience
- Feel protected from contamination with carbon filtration and UV light technology

water up 

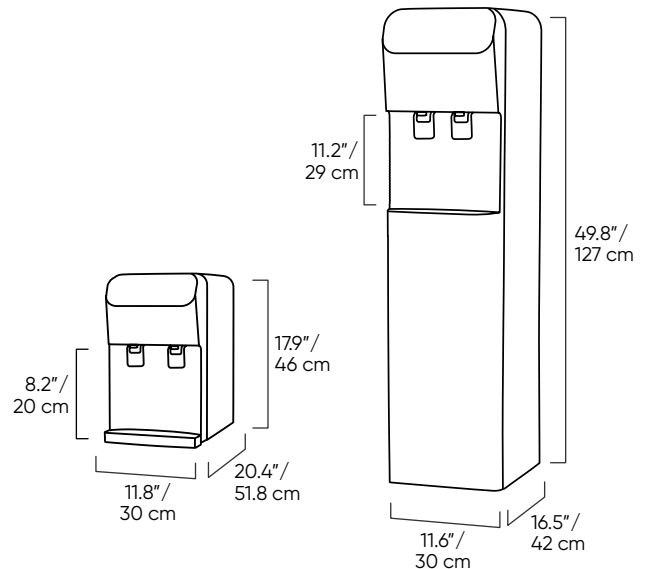

Quench Q5

The Quench Q5 series levels up all break rooms from professional offices to schools and warehouses. This robust, large capacity water cooler features a generous dispenser to provide easy access to endless filtered cold and hot water. And the advanced filtration technologies, in-tank UV light, and antimicrobial surface protection offer distinct water quality assurance.

Built for a variety of environments

- Reverse osmosis or carbon filtration
- LED ultraviolet light to maintain water quality
- Rugged paddle dispensing and hot water safety feature
- Antimicrobial surface protection
- Taller ergonomic “no-bend” dispensing design (Freestanding model)
- Fits under most cabinets (Countertop model)
